SMART TOOL GROUP

SMART Tool Global was founded in New Zealand in 2008 and benefited from a massive global market shift in the multi-tool accessory space.

Since then, we have grown into a leading brand of blades, supplying some of the largest specialty and home improvement stores around the world.

While other multi-tool accessory suppliers have a range of blades to complement their power tool program, we at SMART come from the other direction: we focus exclusively on blades and accessories. This way, you can have confidence that we are the specialists in this field.

In 2022, we successfully established a new production facility in the UK as well as the Netherlands. With this, we can proudly say that we are a true European manufacturer of multi-tool blades.

Our global sales teams and strategically located warehouses allow us to provide our customers with unmatched quality and operational flexibility. These locations are the Netherlands, New Zealand, Sweden, the UK and the USA.

Our goal is to be best in class in every aspect of the product, point of sale, packaging and marketing, with a vision to become the world's leading supplier of multi-tool blades and accessories.

SMART Tool Global, the best in blades!

per ordini: info@toolsdistribution.com

SMART

SMART is a trusted and leading brand in the market, specialising in high quality multi-tool blades and accessories to fit popular brands of oscillating multi-tool. SMART has a comprehensive range which is grouped into three 'Series' to cater for every multi-tool fitment, application and performance requirement.

The SMART multi-tool blade range has won numerous awards and is truly unrivalled in versatility, innovation, quality and affordability, providing an unbeatable solution for both merchants and users.

ENGINEERED FOR LONG LIFE

The Titanium Series blades have been engineered to last longer than any other Bi-Metal blade when cutting through nails, copper pipes and even screws! The titanium coating reduces heat build-up to significantly extend blade life and ensure consistently high-performance.

ENGINEERED FOR THE TRADESMAN

The Trade Series contains a huge range of high-quality multi-tool blades and accessories designed to equip trade users with an accessory for all requirements. Extend the capability of your multi-tool with the wide range of cutting, scraping, sanding and grinding accessories in the Trade Series.

ENGINEERED FOR THE PROFESSIONAL

The Professional Series is a robust and versatile range of high-quality multi-tool blades and accessories designed specifically for the professional user. Maximise the potential of your multi-tool with the wide range of cutting, sanding and grinding accessories in the Professional Series.

SMART

DISTRIBUTOR BENEFITS

Whilst the SMART brand and product range is geared towards trade and DIY users, when it comes to our distributor customers the focus is very clear: steadfast support and an unwavering commitment to grow your business.

From Iceland to New Zealand and everywhere in between, the level of support and benefits as a distributor are exactly the same. Increasing your multi-tool blade and accessory sales has never been so effortless.

Delivery in full, on time, every time

- Fast delivery on over 200 products

PROACTIVE MARKETING

At SMART, we approach marketing a little differently to others in the industry. We are not simply using it to attract new customers for ourselves, but to also grow your business. We believe that your business is fundamental to ours, and this strongly drives the force behind our sales-through guarantee and commitment to success.

Over the course of many years, we have massively invested into growing the SMART brand awareness and end-user demand globally. We continue to do so today, adapting to the fast-changing marketing trends and improving in places wherever needed. As a SMART distributor you immediately and directly benefit from this historic and continual investment, something that has been proven time and time again.

Having products on shelves is only the beginning of the journey. We also take full responsibility in promoting SMART products and building our brand, independent from any resellers.

With a core marketing team based in the UK and marketing coordinators situated in regional offices, our marketing support is proactive, consistent and tailored to specific regions, markets and languages.

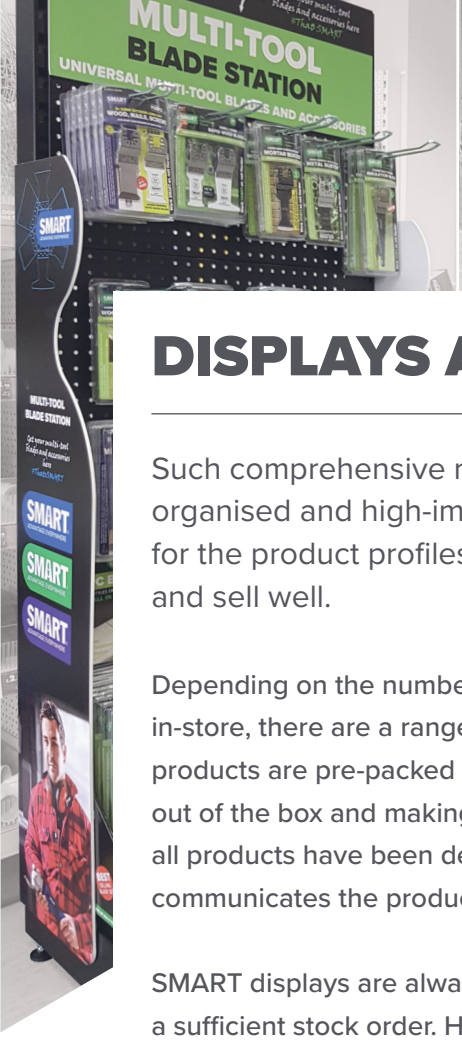
SMART

WE OFFER A WIDE RANGE OF DISPLAYS AND POINT OF SALE SOLUTIONS TAILORED TO SUIT YOUR MARKET - ASK FOR DETAILS



DISPLAYS AND POINT OF SALE

Such comprehensive ranges of product within the SMART brand demand attractive, well organised and high-impact retail display and point of sale options. Tailored specifically for the product profiles in question, your in-store display is guaranteed to look great and sell well.

Depending on the number of product lines in your profile, the space available and the positioning in-store, there are a range of permanent and semi-permanent display options available. Most SMART products are pre-packed in 'retail-ready' countertop display units, ensuring a neat display right out of the box and making the process from delivery to on-the-shelf quick and effortless. In addition, all products have been developed with high-impact packaging that both captures attention and clearly communicates the product features, effectively selling itself.

SMART displays are always offered free of charge along with a sufficient stock order. Having worked with hundreds of businesses to install in-store displays and profiles, our sales team are able to offer expert advice, working with you to create the perfect solution.

OPERATIONAL CAPACITY

From humble beginnings, excellent stock availability and fast delivery has always been core to SMART's offering, knowing the importance of this to the day-to-day operation of your business.

Over recent years, SMART have invested massively into increasing operational capacity to ensure service levels never falter, even with a growing global customer base and extensive product range.

In 2022, our operational capacity and service levels are at an all-time high. We are pleased to offer fast delivery on over 200 products due to a large stock holding in strategic locations across the world, enabling us to deliver on full, in time with a success rate over 98%.

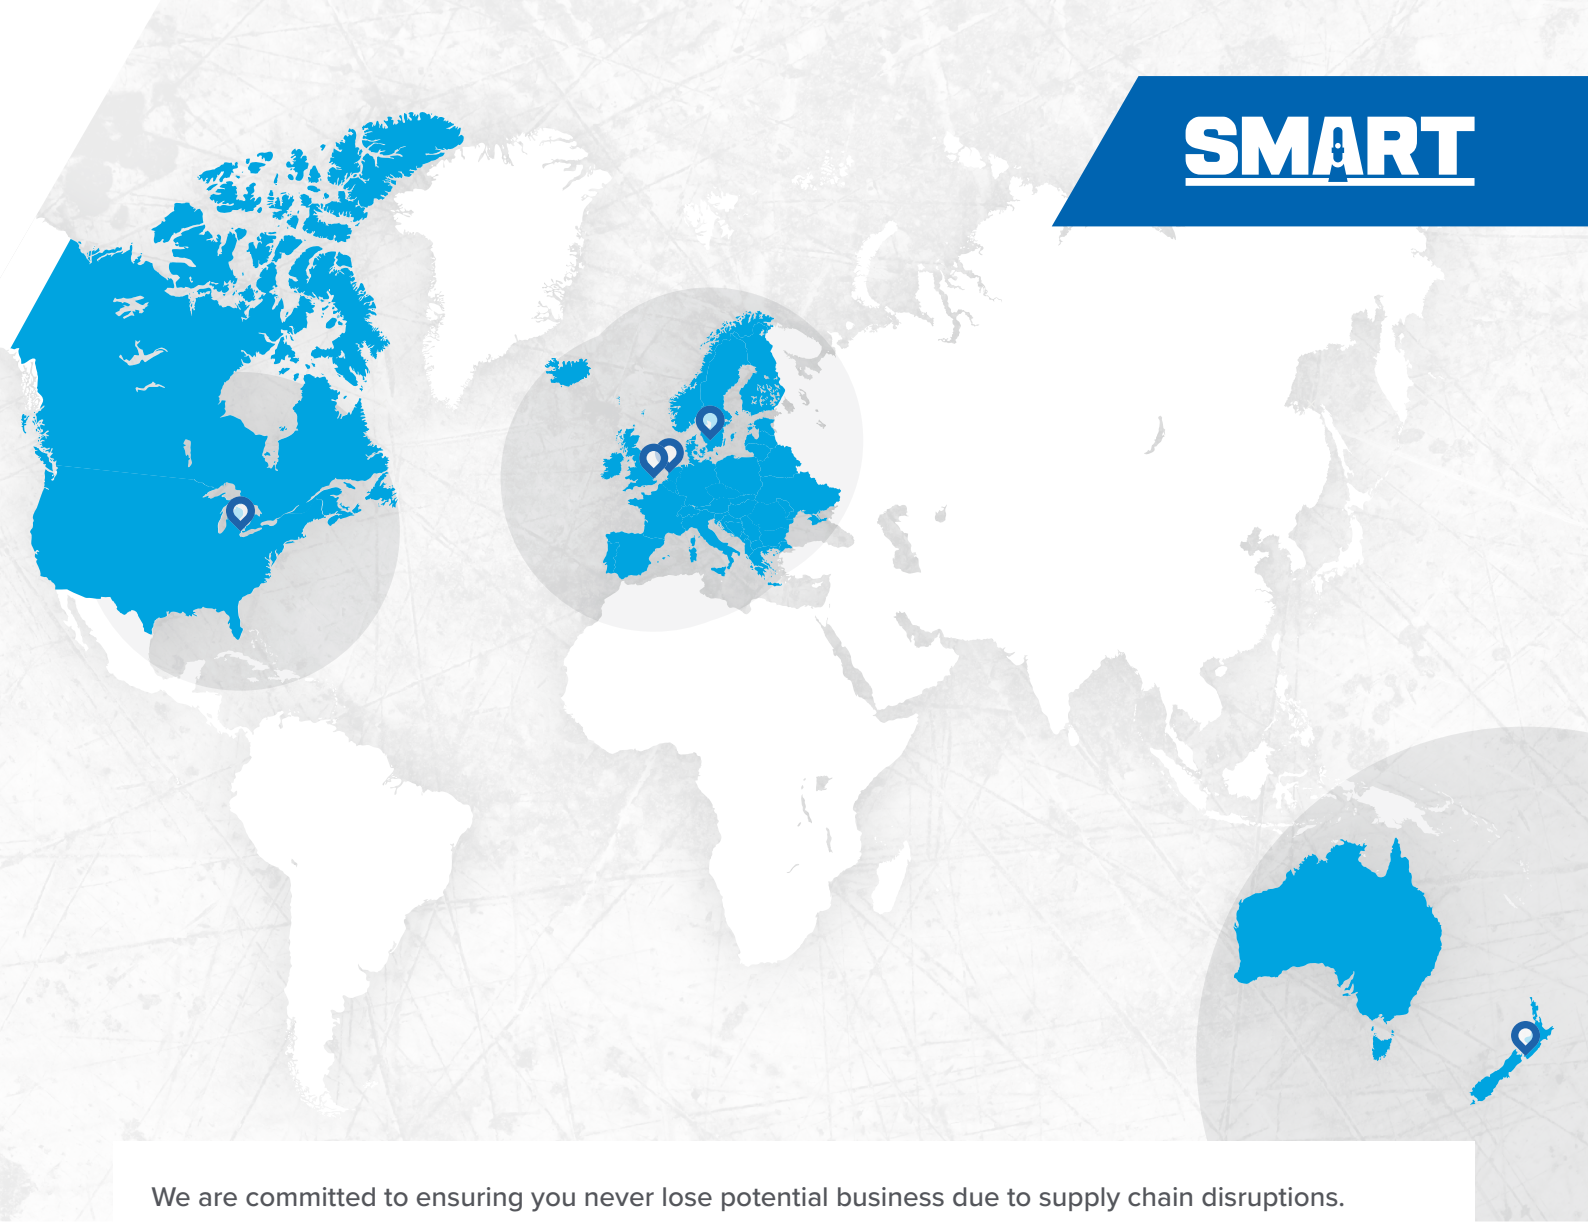
UK WAREHOUSE DEVELOPMENT VIDEO



We are committed to ensuring you never lose potential business due to supply chain disruptions. To strengthen this commitment, we hold 3 months of safety stock in our regional distribution centres for key product lines, ensuring a high inventory service level.

Furthermore, we make use of real time data analytics and machine learning algorithms to compute the optimum supply chain inventory levels. It allows us to respond quickly to changes in buying behaviours, which is then communicated to our suppliers. Our systems also trigger automated alerts letting us know when changes occur, so our demand planners can adjust the inventory plan accordingly.

With such robust operational capacity, we are exceedingly confident of upholding our core offering of excellent stock availability and fast delivery, both in present and future.

INNOVATION

Innovation has always been at the core of our business, having developed completely new and market-leading multi-tool blades and accessories for various weird and wonderful scenarios over many years.
Our ongoing investment towards innovation and customer-led product range development has driven our growth across power tool accessory markets.

SUSTAINABILITY

In 2021, we launched our 'Zero100' campaign to have 0% single-use plastics across our product ranges and for all remaining packaging to be 100% recyclable by 2023.

Such a drive will ensure SMART introduces zero-single use plastics into the supply chain, significantly reducing ours and our customers carbon footprint. Changes to our product packaging also allow us to realise large increases in storage and logistical efficiency for the entire supply chain with product volume reductions of up to 67%.

With the significant changes already in motion, SMART has also set the target of being Carbon Neutral by 2025. Whilst the Zero100 campaign will eliminate single-use plastics and ensure all packaging is recyclable, contributing massively towards our Carbon Neutral target, it is the logistical efficiencies gained through packaging volume reduction which makes an even larger contribution.

Furthermore, SMART plan to reduce carbon emissions through electric vehicle fleets, both in-house and with our logistics partners. We will then be engaging with an appropriate Carbon Offsetting initiative to continue to monitor, reduce and offset our environmental impact and to become a sustainable and Carbon Neutral organisation.

Our extensive range of multi-tool accessories help get the job done

Through product range development and new innovations, the SMART range of multi-tool blades and accessories cater for every application, material and tool fitment.

UNIVERSAL

Universal fitment: Fits most main brands of multi-tool. Not Starlock.

STARLOCK

Starlock: Fits Starlock multi-tools and more.

STARLOCK PLUS

Starlock Plus: Only fits Starlock multi-tools.

SURECUT PRÄZISION

Suitable materials: Wood, Nails, Non-ferrous metal, Plastic

Top application: Great for when very clean and precise cuts are required.

NAIL BUSTER

Suitable materials: Wood, Nails, Non-ferrous metal, Plastic

Top application: Great for wood with nails.

NAIL BUSTER EXTREME

Suitable materials: Wood, Nails, Screws, Non-ferrous metal, Plastic

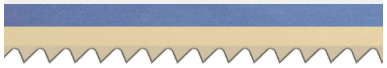
Top application: A perfect option when cutting wood with nails and screws.

TITANIUM BI-METAL

Suitable materials: Wood, Nails, Screws, Non-ferrous metal, Plastic

Top application: Extra long life cutting wood with nails and screws.

BI-METAL



Suitable materials: Wood, Nails, Non-ferrous metal, Plastic

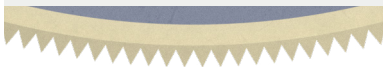
Top application: Great for wood with nails.

METAL BUSTER

Suitable materials: Thick Metal, Screws, Fibre Cement Board, Fibreglass, Nails, Non-ferrous Metal

Top application: Where particularly hard materials need to be cut, such as steel bolts.

HSS



Suitable materials: Thin Metal, Fibreglass, Wood, Plastic

Top application: Particularly useful for long linear cuts, especially in thin sheet metal.

FINE

Suitable materials: Wood, Plastic

Top application: Particularly clean and precise cuts in wood.

FANG

Suitable materials: Wood, Hardwood, Drywall, Plastic

Top application: Particularly useful when cutting hardwood, providing extra long-life.

JAPANESE

Suitable materials: Wood, Hardwood, Drywall, Plastic

Top application: Particularly fast cuts in wood but also effective cutting drywall.

COARSE

Suitable materials: Wood, Hardwood, Plastic, Drywall

Top application: A great balance of fast cutting without comprising precision, also good for drywall.

RAPID WOOD

Suitable materials: Wood, Hardwood, Plastic

Top application: Especially useful for very fast cuts in wood.

CARBIDE CUTTERS

Suitable materials: Grout, Plaster

Top application: Very precise cutting of tile grout to remove tiles.

CARBIDE RASPS

Suitable materials: Adhesive, Grout, Plaster

Top application: Perfect for removing old tile adhesive and grout when tiles are removed.

DIAMOND

Suitable materials: Grout, Plaster, Tile

Top application: Great cutting hard materials such grout or small detailed cuts in tile.

MORTAR BUSTER

Suitable materials: Mortar, Concrete, Brick, Grout, Plaster

Top application: Great cutting hard aggregate materials such as mortar and brick.

BOX/HOLE CUTTERS

Suitable materials: Drywall

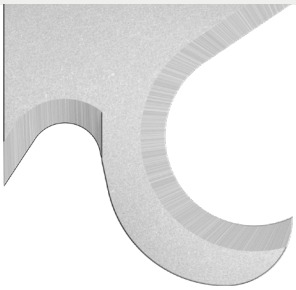
Top application: Quick plunge cuts in drywall where other tools aren't viable.

INSULATION BUSTER

Suitable materials: Insulation Board

Top application: Perfect for plunge cutting or quickly trimming foil backed insulation board.

FABRIC



Suitable materials: Vinyl, Carpet, Roofing Felt

Top application: Fabric cutting multi-tool blade is useful for cutting, trimming and slicing fabric material such as carpet or roofing felt.

SILICONE BUSTER

Suitable materials: Silicone, Soft Compounds

Top application: Particularly useful for window removal, to scrape old silicone and other sealing compounds.

SCRAPER

Suitable materials: Adhesive, Silicone, Paint, Vinyl, Soft Compounds

Top application: Great for scraping virtually any compound.

DRYWALL

Suitable materials: Drywall

Top application: Drywall blade is designed specifically for plunge cuts and chasing out in all types and thicknesses of drywall.

SANDING

Suitable materials: Wood, Paint

Top application: Great where detailed sanding is required.

SMART
TITANIUM
EXTREME
LONG LIFE
WOOD AND NAILS

Titanium Series

The Titanium series is one of the biggest and most popular innovations from SMART. Since its launch in 2016, it has been very popular with end-users and retailers alike.

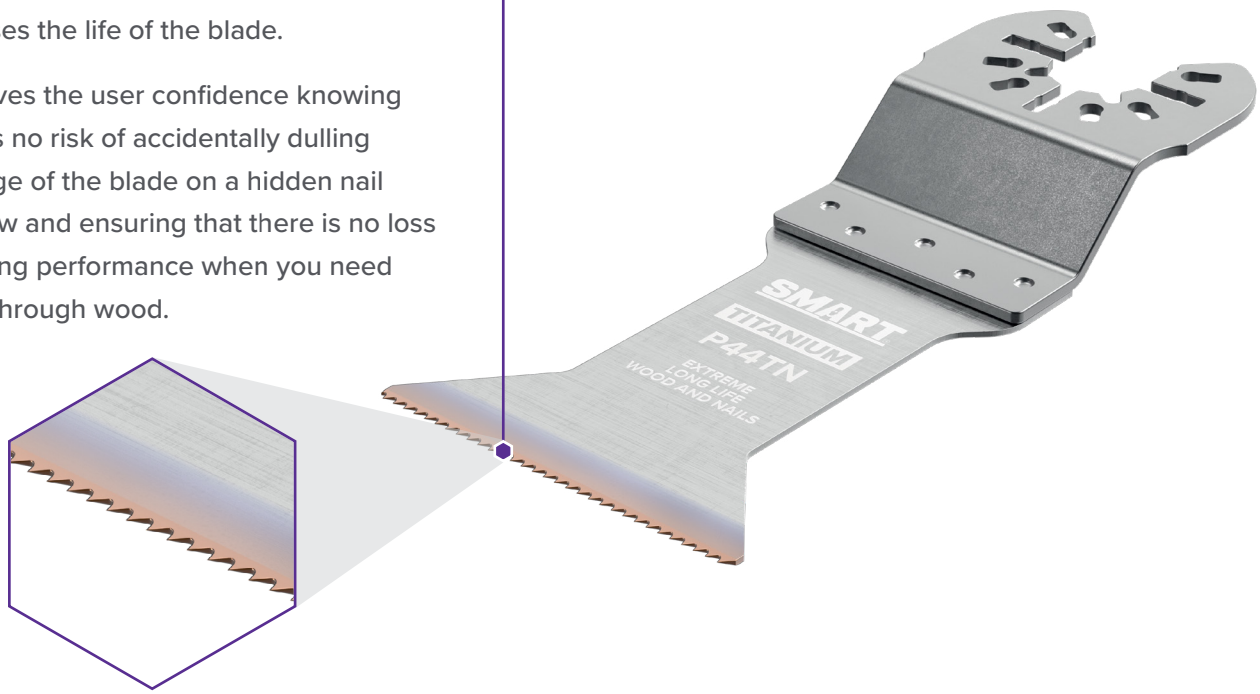
The main reason for this is that it solves one of the industry's biggest annoyances about multi-tool blades (hitting a nail and destroying the blade!) while offering a much simpler, versatile range of blades for any user.

The Titanium Series blades are designed to not only deliver a comparable cut to any wood blade but with the development of the new Purple Titanium Aluminium Nitrate (TiAIN) coating, they also last longer than any other Bi-Metal blade when it comes to cutting through nails, copper pipes and even screws!

The heat build up on the toothed edge when cutting steel and non-ferrous metal is what reduces the life of the blade and the TiAIN coating provides a friction reduction function which reduces this and increases the life of the blade.

This gives the user confidence knowing there is no risk of accidentally dulling the edge of the blade on a hidden nail or screw and ensuring that there is no loss of cutting performance when you need to cut through wood.

Purple Titanium Nitride Coating



EVERY BLADE IN THE TITANIUM SERIES RANGE HAS EXACTLY THE SAME TOOTH DESIGN AND ALL HAVE THE SAME CUTTING ABILITY MEANING THAT USERS ONLY HAVE TO CHOOSE THE RIGHT WIDTH BLADE FOR THEIR JOB!

Titanium Assortment Sets

32mm Titanium Alloy Bi-Metal Blade - 3pk + FOC 32mm Rapid Wood Blade

Precision cutting Titanium Series blade ideal for a wide array of applications and general purpose cutting. Extended 51mm blade length for full depth cuts in 2” timber. Universal Bi-Metal: Cuts wood, nails, screws, copper and plastic.

SMART INNOVATION

Fabric Cutting Blade

This blade has a dual function of both pull and push blade edges creating a very versatile accessory for cutting soft materials like vinyl, rubber etc.

24 mm wide pull cutter blade enables the operator to cut through overlapping materials without background contact.

SUITABLE MATERIALS	VINYL	CARPET	ROOFING FELT	KEY FEATURES	FAST CUTTING	CLEAN CUTS

Universal Fabric Cutting Blade

The Trade Series fabric cutting multi-tool blade is useful for cutting, trimming and slicing fabric materials. Suitable for Vinyl, Carpet, Roofing Felt.

- Unique blade shape provides quick and easy cuts in many fabric materials.
- Universal Open-back (not Starlock).

SPECIFICATION	PACK QTY	BOX QTY	BARCODE	PRODUCT CODE
32mm wide	1	10	5060668273234	HFCB1

Drywall Blade

This is specifically designed for use in drywall, providing a highly effective cut in many different scenarios. The coarse teeth enable fast, precise and clean plunge cutting, trimming and chasing whilst the unique sideward facing teeth add extra versatility and cutting angles for detailed or difficult cuts. The piercing tips are Initiating a clean cutting start, along with push/pull cut capabilities allows for detailed cuts, especially tight circular cuts

SUITABLE MATERIALS	DRYWALL	PLASTERBOARD	KEY FEATURES	PLUNGE CUTTING	CLEAN CUTS

Drywall Blade

The Trade Series 70mm drywall blade is designed specifically for plunge cuts and chasing out in all types and thicknesses of drywall.

- Quickly and easily plunge cut and chase out in drywall with a multi-tool.
- Universal Open-back (not Starlock).

Professional Series

The SMART Professional Series is a robust and versatile range of high-quality multi-tool blades and accessories designed specifically for the professional user. Servicing both Starlock and universal fitment tools, the Professional Series ensures end-users with all the most popular brands of multi-tools have access to high-quality blades and accessories at an affordable price.

Inspired by the Trade Series, the range features a number of SMART innovations resulting in a comprehensive offering of blades and accessories for a wide range of applications and materials. Now including diamond-coated blades, metal-cutting blades, rapid wood blades and sanding accessories, the range covers all the main uses of a multi-tool, with all the specialist accessories available in both Starlock and universal fitment options.

MANY OF THE PROFESSIONAL SERIES PRODUCTS ARE PROUDLY 'MADE IN BRITAIN'. PROVIDING A FURTHER LEVEL OF CONFIDENCE IN THE MANUFACTURING QUALITY AND CONSISTENCY OF THE RANGE FOR END-USERS AND DISTRIBUTORS ALIKE.
